Rx
Calcium and Vitamin D3 Tablets IP

Bone Health

Strength

Mineralisation

MECHANISM OF ACTION

Calzirex D3 works through synergistic nutrient support:

- **Calcium Carbonate:** Supplies elemental calcium essential for bone formation, neuromuscular function, and skeletal strength.
- **Vitamin D3 (Cholecalciferol):** Enhances intestinal absorption of calcium and phosphorus, ensuring effective mineralisation of bones.

KEY CLINICAL ADVANTAGES

- Ensures effective calcium bioavailability
- Reduces risk of deficiency-related bone disorders
- Supports long-term bone health maintenance
- Well tolerated in recommended doses
- Ideal for preventive and therapeutic use

DOSAGE & ADMINISTRATION
